

## MK-Plastic pallet range

### BiPP Display

With a static load of 1000kg and dynamic loads up to 500kg, this pallet is compatible with almost all standardized materials handling systems. It is suitable for distributing and displaying a wide variety of products and, being light and nest-able, leads to efficient transport and storage.

		Length (mm)	Width (mm)	Height (mm)
	<a href="#">1850.006</a>	600	400	140
	<a href="#">1851.007</a>	800	600	160
	<a href="#">6100.754</a>	800	600	147
	<a href="#">6101.752</a>	800	600	145

### BiPP Clean room

BiPP cleanroom pallets come with smooth top decks, sides, under decks and runners to keep fluids, dusts and granulates materials at bay. These rimmed pallets can handle static loads of 7500 kg, dynamic loads up to 1500kg and racking loads of up to 1250kg. All racking loads are based on a bonded uniformly placed load, conform ISO 8611-3.

		Length (mm)	Width (mm)	Height (mm)
	<a href="#">6461.830</a>	1200	800	155
	<a href="#">3312.001</a>	1200	800	155
	<a href="#">3313.001</a>	1200	1000	158
	<a href="#">8620.100</a>	1200	800	150

### BiPP Heavy

BiPP heavy-duty pallets are particularly strong, easily handling static loads of 7500 kg and dynamic loads up to 1500 kg. These attractive streamlined pallets are also available in closed deck versions.

All racking loads are based on a bonded uniformly placed load, conform ISO 8611-3.

	Length (mm)	Width (mm)	Height (mm)
 <a href="#">1871.005</a>	1140	1140	170
 <a href="#">1879.005</a>	1200	1000	165
 <a href="#">1887.002</a>	1200	800	150
 <a href="#">8550.200</a>	1200	800	191
 <a href="#">8551.200</a>	1200	1000	191
 <a href="#">1876.002</a>	1200	800	150
 <a href="#">1878.002</a>	1200	1000	150
 <a href="#">1875.005</a>	1300	1100	165
<a href="#">3301.002</a>	1200	800	157
<a href="#">3301.001</a>	1200	800	157

## BiPP Light

Providing a good balance of weight, volume and loading capacity, this pallet weighs between 5kg and 10kg and can handle flat loads of 2500kg and dynamic 1000kg with ease. The nestable pallets come with runners and a rim making them easy to stack and efficient in transport and storage.

# BiPP Medium

Belonging to the latest generation of plastic pallets, these multi-trip medium duty pallets are made with mono-bloc design. They combine light weight with high strength and a racking load of 750kg so you get both high performance and lower costs. All racking loads are based on a bonded uniformly placed load, conform ISO 8611-3.

		Length (mm)	Width (mm)	Height (mm)
	<a href="#">2714.516</a>	1200	800	165
	<a href="#">2715.516</a>	1200	800	165
